

Crystal Clear Water

- Crystal Clear-High Quality Water

Sourced from an underground aquifer system- with no salt/iron/alkaline content.

Ideal for swimming pools, spas,tanks,gardens,commercial applications

We guarantee the quality by way of a certificate that ensures you will not have to balance the water . This means you can swim the same day we pump the water in.

- Beware of inferior quality water that comes from dams, creeks and other less desirable sources as this will effect your pool colour, the filter system and more.

- Health department analysis prinout available on request.

- Call Neale for more details on 0448 553 007
